

BHARATH V

Aspiring AI & ML Engineer | Full-Stack Developer

+91 7010718225 | vbharathvsb@gmail.com | [GitHub](#) | [LinkedIn](#) | Karur, Tamil Nadu, India

CAREER OBJECTIVE

A driven final-year Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with hands-on experience in developing full-stack web applications and AI/ML solutions. Proficient in Python, Java, and modern web technologies, with a strong foundation in data structures, algorithms, and machine learning. Seeking for a software engineering or AI/ML position where I can apply my technical skills, contribute to impactful projects, and continue growing as a developer.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering (AI & ML) V.S.B. Engineering College, Karur.	2023-2027
---	------------------

CGPA: 8.25 / 10.0

Higher Secondary Certificate Govt.Hr.Sec.School, Mamandur.	2022-2023
--	------------------

Percentage: 79.3%

TECHNICAL SKILLS

Languages: Python, Java

Frontend: HTML

Backend & Databases: SQL, SQLite

AI / ML: YOLO (object detection), Genetic Algorithm optimization, Email classification (ML)

Tools & Platforms: Git, GitHub, VS Code, PyCharm, Eclipse, Google Colab, Supabase, Canva, Adobe Express, Microsoft Office

PROJECTS

AI-Based Traffic Management System [\[GitHub\]](#)

Tech Stack: Python, YOLO, TypeScript, React, CSS, Supabase, Gemini API

- Designed and implemented a real-time vehicle detection pipeline using YOLO object detection to identify vehicle density across multiple traffic lanes.
- Applied a Genetic Algorithm to dynamically optimize traffic signal timings based on live vehicle counts, reducing simulated wait times.

Online Medication & Prescription Tracker [\[GitHub\]](#)

Tech Stack: HTML, CSS, JavaScript, Python, SQLite

- Developed a web application that digitizes prescription records, enabling patients to access their medication history from any device.
- Implemented a role-based system allowing doctors to issue e-prescriptions and patients to track dosage schedules and refill reminders.

Smart Recruiter [\[GitHub\]](#)

Tech Stack: HTML, CSS, JavaScript, Python, SQLite

- Built a recruitment management portal to streamline candidate applications, shortlisting, and interview scheduling.
- Implemented search and filter functionality for HR teams to quickly identify qualified candidates based on skills and experience.

Debugging Contest Platform [\[GitHub\]](#)

Tech Stack: HTML, CSS, JavaScript, Python

- Created an interactive coding challenge platform where participants identify and fix intentionally introduced bugs across multiple programming tasks.
- Designed a leader board system to rank participants by accuracy and time, enhancing competitive engagement.

Reva's Trendz Billing System [\[GitHub\]](#)

Tech Stack: HTML, CSS, JavaScript, Python, SQLite

- Developed a point-of-sale billing application for a retail business, handling product inventory, customer billing, and transaction history.
- Implemented invoice generation with itemized breakdowns, discount management, and daily sales summary reports.

INTERNSHIPS

Technology Stack Intern — Infosys

Nov 2025 - Jan 2026

- Developed an Online Medication & Prescription Tracker as the core project deliverable.
- Gained practical exposure to full-stack development workflows, requirements analysis, and iterative software delivery in a simulated professional environment.

ML Intern — Plasmid Innovation

Oct 2024 - Dec 2024

- Built an Email Spam Detection system using supervised machine learning techniques to classify incoming emails as legitimate or spam.
- Pre-processed raw email datasets (tokenization, TF-IDF vectorization) and trained classification models, achieving reliable detection accuracy.

CERTIFICATIONS

- | | |
|---|-----------------------|
| • Programming in Java | — NPTEL |
| • Generative AI for All | — Infosys |
| • Java Foundation Certificate | — Infosys Springboard |
| • Prompt Engineering | — Skill Up |
| • Generative AI Fluency | — NASSCOM |
| • Excel Basics for Data Analysis | — Coursera / IBM |

ACHIEVEMENTS

- Earned a Black Belt in Karate, demonstrating discipline, perseverance, and strong leadership skills.
- Earned Typewriting Certification (45 WPM), demonstrating strong typing accuracy and productivity.

EXTRA-CURRICULAR ACTIVITIES

- Designed and delivered creative visual content (posters, presentations, event materials) using Canva and Adobe Express for college events.
- Actively solving problems on LeetCode, building algorithmic thinking and competitive programming skills.
